

**GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)**

No. 2023/F(X)II/10/2

New Delhi, Dated 10-03-2023

The General Managers,
All Indian Railways.

**Sub: Test of Remunerativeness for Projects that relate to improvement
in operational efficiency and safety**

Some railways have raised an issue of calculation of ROR/FIRR for certain operational efficiency/safety works. Attention is invited to para 715A of Finance code Volume I wherein traffic facility works are also charged to RSF. It is clarified that for traffic facilities works like yard remodeling, removal of speed restrictions, provision of loop line, change in curve, being charged to Railway Safety Fund (RSF), test of remunerativeness would not be required as these works are crucial from safety point of view.

2. Further, even in Para 202 of Finance Code Volume I, financial remunerativeness is not mandatory for sanction of works, even if charged to Capital. These exceptions are reiterated below:

- a) when the expenditure is incurred on a statutory obligation;
- b) when the expenditure is unavoidable on considerations of safety;
- c) when the expenditure is incurred on passenger amenity works; and
- d) when the expenditure is incurred on labour welfare works except residential buildings for which special rules are applicable.

3. Railways may note the above clarification. This issues with the approval of Board (M Infra, MF and CRB&CEO).
